London – Reuters, the global information, news and technology group, announced today that, as part of the process of moving towards an initial public offering (IPO) for Instinet, its wholly owned electronic brokerage subsidiary, a second amendment to the S-1 Registration Statement for a proposed IPO with the US Securities and Exchange Commission (SEC) has been filed and includes the following information:

"For the first quarter of 2001 our total revenues were approximately \$431 million and our net income was approximately \$50 million, an increase of 24% and 18%, respectively, from total revenues of approximately \$349 million and net income of approximately \$42 million for the first quarter of 2000. Our trading volumes in Nasdaq-quoted and NYSE-listed stocks during the first quarter of 2001 increased 56.0% and 37.0%, respectively, compared with the first quarter of 2000 to 20.1 billion shares and 2.7 billion shares, respectively. Our share of volume in Nasdaq-quoted stocks increased from 11.3% in the first quarter of 2000 to 15.1% in the first quarter of 2001, and our share of volume in NYSE-listed stocks increased from 2.4% in the first quarter of 2000, to 3.0% in the first quarter of 2001. During the first quarter of 2001, our customers used our systems to execute 27.5 million transactions in U.S. equity securities, and 1.7 million transactions in equity securities traded in markets outside the United States."

The numbers reported by Instinet in the S-1 conform to US GAAP and include soft dollar and commission recapture revenue and interest income. Under UK GAAP, Instinet's revenue for the first quarter of 2001 was £250 million, up 27% from the first quarter of last year with underlying revenue up 20%.

As previously announced, it is anticipated that the IPO will be for a maximum of 14.1% of Instinet's capital stock.
